

Did You Know...

A licensed contractor is bound by the license they hold. They can only work on jobs related to their trade because it's what their insurance covers. A plumber, an electrician, & HVAC tech., are all required to be licensed in Texas. A skilled HANDYMAN does a lot of the same work, and may also be licensed in one or more of the trades. Being that he or she is independent, they are able to be more selective of the jobs they incorporate into their business.

Often times saving you both time & money. A Handyman is also willing to do work that a licensed contractor won't. **GIVE IT SOME THOUGHT!**

****DISCLAIMER**

****EL Handyman is an independent unlicensed contractor, who is skilled in residential maintenance and repairs for home improvement.**

Workmanship is guaranteed.
